

Phonics Screening Outcomes (Year 1)

Percentage of children passing the phonics screening test, 2017 to 2019

- We have a 3 year rising trend for the Phonic Screening at the end of Year 1
- Our results are consistently higher than the national figure
- Our results are rising faster than national from 81% in 2017 to 90% in 2019
- These results prove that our children get off to a flying start with their early reading
